The Governor of Lagos State, Mr. Babajide Olusola Sanwo-Olu on Wednesday launched the first-ever Watershield Cement produced by Lafarge Africa Plc. at a colourful ceremony held at the Civic Centre, Victoria Island. He stated that the cement is a testament to Lafarge's commitment to developing products that enhance the quality of life for Nigerians.

Governor Sanwo-Olu, who was represented at the event by the Secretary to the Lagos State Government, Barr. 'Bimbola Salu-Hundeyin, remarked that the Watershield Cement signifies a new era of creativity, efficiency, reliability, and resilience to developers and builders.

He expressed delight that the Watershield birth and christening was in Lagos State, the Centre of Excellence, saying "As we lead, we reiterate our desire for the comfort and better livability of all residents of Lagos State. This is the thrust of our Administration's T. H. E. M. E. S. Plus Developmental Agenda of inclusivity and good governance for the betterment of the citizenry".

While congratulating the Group Managing Director (GMD), Lolu Alade-Akinyemi and the Lafarge team for positioning themselves as leaders in sustainable and innovative construction solutions, he appealed that the
